Task Manager

DIGITAL TECHNOLOGIES TO CONNECT YOUR SKI RESORT

MAKE YOUR WORK LIFE EASIER

Snow Measurement | Fleet Management | **Task Manager** | Maintenance Overview

TASK MANAGER

Know what to do and when to do it at anytime

With dozens, often hundreds of tasks a week to manage in a ski resort, current solutions are reaching their limits. Task Manager takes the work out of managing your tasks, keeping you up to date at all times and giving you peace of mind that your operations are running smoothly.

One location for all tasks create, assign, and track all tasks in one application—no more switching between clipboards, texts, sticky notes, phone calls and radios

Save time through easy and seamless communication between all employees

Optimize workflows through accurate and clear reporting, time stamping and geolocation

Never forget a task again—receive notifications about assigned and completed tasks as well as due dates

FEATURES

- All data available in real time via the online resort management platform Skadii
- Easy to use on all devices such as PC, tablet or cell phone (suitable for Android and iOS), even in offline mode
- Automatic data backup in the cloud
- Automatic web-based synchronization between all devices
- Create and assign tasks anywhere, anytime and add comments or attachments, including map view of the ski resort
- Overview of personal work assignments for each employee
- Push notifications for assigned and pending tasks
- Timestamp and geolocation

 **Increase efficiency**
 **Save resources**
 **Reduce costs**
