**MOUNTAIN
CONSULTING**

WHEN THE MOUNTAIN CALLS,
WE ANSWER.

Pinotti

MOUNTAIN CONSULTING is PRINOTH's individual consultancy program for slope preparation.

10%

saving on resources

15%

increase in efficiency

39%*

cost saving per hectare (in combination with the Resource Management analysis tool)

We translate the language of snow. Our bespoke consultancy in the theory and practice is tailored to your individual needs and is provided by us at your premises - whatever the make and model of the snow groomer. And the aim is maximum efficiency, minimum cost.

**The figures shown here relate to past experience gained from training already conducted.*

TRAINING CONTENT IN DETAIL

MOUNTAIN CONSULTING is a consultancy program implemented over several days across the season and consisting of professional analysis and individual consultancy.

Consultancy in autumn

- ✓ Correct handling of artificial snow and the first natural snow
- ✓ Maintenance work on the snow groomer
- ✓ Secure handling of snow groomers

Consultancy in winter

- ✓ Handling snow groomers efficiently
- ✓ Correct leveling of worn-down slopes
- ✓ Making and restoring snow reserves

Consultancy in spring

- ✓ Handling a snow groomer in spring snow
- ✓ Monitoring snow reserves
- ✓ Debriefing

Consultancy in summer

- ✓ Conditioning of the slope areas in summer
- ✓ Positioning of anchorage and deflection points

MOUNTAIN CONSULTING is an individual, bespoke consultancy program tailored to your ski resort.

This brings many benefits:

Improved slope quality

- ✓ Professional structural design of the slope
- ✓ Correct handling of different types of snow
- ✓ Correct handling of critical spots

Professional snow management

- ✓ Making and restoring snow reserves
- ✓ Snow security as a result of proper planning

Operating cost savings

- ✓ Reduction in machine hours
- ✓ Lower maintenance and service costs
- ✓ Lower fuel consumption

Sustainability

- ✓ Fuel savings
- ✓ Careful handling of the snow groomer
- ✓ Avoidance of damage to vegetation
